

NHTP Impact on Individuals

No more Federal Income Taxes. No More federal income tax filings.

The disposable income (*take-home-pay*) of every American worker will increase by the amount of Federal Income Taxes currently being withheld from their pay and bonuses. For a quick estimate of how much, examine your pay stub; look for the amount of Federal Income tax withheld. Your take-home-pay will increase by that amount less (16 cents for every \$100 of take-home-pay).
